## PROFILE

Aspiring Full Stack Developer with a solid foundation in web development technologies and a keen interest in software engineering. Proficient in PHP and Laravel, with a demonstrated ability to develop dynamic web applications. Passionate about continuous learning and eager to apply and further enhance my skills in real-world projects. Strong problem-solving abilities and excellent collaborative skills.

## WORK EXPERIENCE

- Currently, no formal work experience. Focused on self-study and project development.

## PROJECTS

- Technologies Used: Laravel, MySQLDescription:
- Developed a fully functional e-commerce platform that allows users to browse products, add them to their cart, and place orders.
- Key Features:
- User registration and authentication for secure access
- Comprehensive product catalog for user navigation
- Shopping cart functionality with inventory management
- Backend database management using MySQL
- Challenges Faced:
- Managed product inventory efficiently; overcame issues with cart updates through effective use of Laravel's session management and querying.

## EDUCATION

Matriculation (High School) [A A memorail school] | [karachi, quidabad] | Graduated: 2022 2010 - 2025

Developed a passion for programming following graduation and have since engaged in self-directed learning in software development.
